

	هبة عبد الرزاق عبد الفتاح محمود	الاسم
	Heba abd elrazak abd elfatah	Name
	Heba abdelfatah Heba abdelfattah	الاسم المستخدم في النشر العلمي
	مدرس faculty of medicine Helwan university	الدرجة العلمية (اسم الجامعة والدولة)
	Histology	التخصص العام
	Histology	التخصص الدقيق
	Heba.altamemy@med.helwan.edu.eg	البريد الإلكتروني
	دكتورة هيستولوجي	المؤهلات العلمية
	مرفقة	السيرة الذاتية
	1-The putative role of nigella sativa oil versus calcium and vitamin d in modulating the glucocorticoid-induced osteoporosis in rats: histological and immunohistochemical study 2-Diacerein provokes apoptosis, improves redox balance, and down regulates PCNA and TNF-α in a rat model of testosterone-induced benign prostatic hyperplasia: A new noninvasive approach 3-Losartan Ameliorates Ovarian Ischaemia/ Revascularization Injury in Adult Albino Rats: Histological and Immunohistochemical Study 4-Could hesperetin ameliorate doxorubicin-induced nephrotoxicity in rats via its antioxidant, antiapoptotic, and anti-inflammatory properties 5-The Renin Inhibitor Aliskiren mitigates Diabetes mellitus induced Vascular Impairment of rats 6-Cardioprotective Effects of Melatonin versus Myricetin on Arsenic-Induced Toxicity in Rats: Histological and Immuno-histochemical Study 7-Crocin mitigates liver Impairment in diabetic rats by Upregulation of Nrf2/HO-1 signaling pathway 8-Albiflorin mitigates diabetic nephropathy in rats by down-regulation of TLR4/NF-kB signaling pathway	الأبحاث المنشورة
